

Dear Gary,

1/8/97

Thanks for the attractive Photographic Memory and your 1/2.

I'm also glad to have that Enquirer piece on Groden.

I was about to write and ask you for copies of any news stories you might see. The Wx Post has close to ignored his testimony. What the Enquirer says is not exaggerated. And I think it possible that the lawyers will say more, or will have said more.

As I told you and as I do not want generally circulated because I'm not up to controversy as I once was, I've completed a lengthy manuscript on his two books. You may remember I told you that if lawyers representing those who are after him for stealing their films want access they can have it.

I'm thinking of adding an Afterword on this fiasco and that is why I'd like any clippings. If you would be kind enough to tell Dave Perry this I'll appreciate any he might be able to send me.

I finished the writing some time ago. It has been retyped but the retyped copy has not yet been sent me.

Groden remains a subject-matter ignoramus.

Have a good year, thank and the best to all of you,

I'll also appreciate any information on any suits and the one settled.
